## PROFESSIONAL SUMMARY

Software Engineer and aspiring MERN Stack Developer focused on building modern, responsive web applications with JavaScript, React, Node.js, Express.js, and MongoDB. Experienced in hands-on portfolio development, API integration, authentication, and modern frontend workflows. Motivated to contribute to real-world software projects and continue growing as a full-stack developer.

## TECHNICAL SKILLS

JavaScript (ES6+) • React.js • Node.js • Express.js • MongoDB • HTML5 & CSS3 • Tailwind CSS • REST APIs • Git & GitHub • Vite • Clerk Authentication • Responsive Web Design

## PROJECTS

**Full-Stack E-Commerce Web Application**

Built a React/Vite-based e-commerce project with reusable components, cart state management, authentication integration, notifications, and API/data context patterns. Worked with Clerk authentication and environment variables.

**React + Tailwind UI Projects**

Developing responsive interfaces with React and Tailwind CSS while practicing component design, state management, API integration, and modern frontend workflows.

## CURRENT DEVELOPMENT FOCUS

• Advanced JavaScript and modern React development

• Backend development with Node.js and Express.js

• MongoDB database design and CRUD operations

• REST API development and integration

• Deployment and production workflows

## EDUCATION

Bachelor's Degree in Software Engineering — Graduate
